

2501136 - RPSCO not updated when Line items exist

Component: PS-IS-ACC-HIE (Project System > Information System > Accounting > Hierarchy Reports),
Version: 3, Released On: 27.08.2025

Symptom

Line items in CJI3 and COEP can be seen but there are no values in table RPSCO

Environment

- SAP ERP
- SAP Enhancement package for SAP ERP
- SAP Enhancement package for SAP ERP, version for SAP HANA
- SAP S/4HANA
- SAP S/4HANA Finance

Reproducing the Issue

1. Run RKACSHOW and get object number for WBS
2. Run SE16 and enter COEP
3. Enter object number
4. Run SE16 and Enter RPSCO
5. Enter object number
6. Values in COEP will not be in RPSCO

Cause

- Line items table (COEP) and a CO totals table (COSS) are out of sync.
- The corresponding records are there, but their values are all zero
- There are values with ZERO stored in the CO tables

Resolution

1. Run SE38
2. Enter RKACORo4
3. Enter object number
4. Execute.
5. Run CJEN (to update RPSCO)
6. Enter Project Number
7. Execute

Only records with non-zero figures are updated to RPSCO.

When RPSCO is rebuild using CJEN it's not the line items that are used to provide the data, but the CO totals tables COSP, COSS, COEP and others.

When those CO totals records are processed there is a check for the presence of at least one non-zero value
IF none of the CO* records pass this test no records are updated to RPSCO.
