

3628766 - "Negative Values Allowed" indicator is not displayed for investment support areas in transaction OAYZ

Component: FI-AA-AA-A (Financial Accounting > Asset Accounting > Basic Functions > Master Data), Version: 1, Released On: 08.07.2025

Symptom

In transaction OAYZ, the "Negative Values Allowed" indicator is not displayed for the specified asset class under investment support areas, despite being correctly configured in the screen layout.

Environment

- Financial Accounting (FI)
- Asset Accounting (FI-AA)
- SAP R/3
- SAP ERP Central Component
- SAP ERP
- SAP enhancement package for SAP ERP
- SAP enhancement package for SAP ERP, version for SAP HANA
- SAP S/4HANA Finance
- SAP S/4HANA

Cause

Investment support areas do not manage APC values in transaction OADB, therefore it is an expected system behavior that the "Negative Values Allowed" indicator is not available at the asset class level in transaction OAYZ for these areas.

Resolution

The described scenario is a standard system behavior which cannot be changed.

The "Negative Values Allowed" indicator cannot be set for depreciation areas that are defined to manage negative values, such as investment support areas.
